Aluma X Brite - Aluminum Cleaner and Brightener

TECHNICAL DATA SHEET

BENEFITS

Ready to use.

Brightens polished metal and aluminum surfaces without etching or pitting.

Removes dirt, oils, road film, black welding and diesel soot.

GENERAL INFORMATION

Aluma X Brite is designed to provide high optical reflectivity on stainless steel and aluminum.

DIRECTIONS

Use acid resistant spray applicator or plastic container to a small area starting from the bottom up. Agitate by brushing. Rinse with cold water at high pressure from the bottom up, and then rinse again from the top down.
