## Lime, Calcium & Rust Remover (LCR)

# TECHNICAL DATA SHEET

### BENEFITS

Lime, Calcium and Rust Remover is a unique non-corrosive acid replacement cleaner that safely breaks down hard water deposits and soils. It cleans grout, ceramic, porcelain, and other hard surfaces while leaving the surface free from residues.

### GENERAL INFORMATION

Removes calcium, lime, and rust deposits from tubs, sinks, toilet bowls, coffee pots, pans, cement, stucco, etc. Do not use on aluminum or marble. Before using on worn or older surfaces, test on a small area.

### DIRECTIONS

1. Use at full strength to a mix of 1 with 2-parts warm water. Depending on amount of scale or rust on surface.
2. Apply to surface with sponge or cleaning brush.
3. Allow to soak a few minutes (longer for heavy deposits).
4. Scrub with brush or scouring pad.
5. Wipe and rinse clean.

### TECHNICAL DATA

Colour:	Orange/ Yellow.
Flash Point 200°C:	Not flammable.
pH	2.0
Corrosive classification.	Non corrosive to skin.

### LCR available in these sizes:

40002            2 L jug

**Proudly  Canadian**
