Welder's Anti-Spatter

TECHNICAL DATA SHEET

BENEFITS

- Water based. No VOC or fumes
- Prevents spatter adhesion for high temperature welding applications such as:
 - Stainless steel welding
 - Multiple pass
 - Thin sheet
- Contains corrosion inhibitors
- Works equally wet or after product has allowed to dry
- Compatible with all metals
- WHMIS non controlled

GENERAL INFORMATION

A high performance weld spatter release solution that protects work pieces from adherence of spatter and eliminates costly spatter removal operations.

DIRECTIONS

Simply apply to surface. Can be used when still wet as well as after product has dried.

TECHNICAL DATA

pH:	8.0
Colour:	Amber
VOC:	None
